

LEADERSHIP THAT INSPIRES

Like our annual medical check-up, Leadership needs a refreshment. Our renewal is 9-11 September 2019. This is open to ALL attendees of our 2018 programs. While certification was based on the requirements of worksheets, *learning is not limited to one approach.*

Have you ever read the writing on the passenger's outside mirror on a truck? It says, "Objects are closer than they appear." Likewise, September is much closer than you realise. Take this as opportunity for your professional learning and development. Make the commitment now – notify Leah Crockford and set aside the September dates now.

Renewals

The advantages are:

- The comfort and familiarity of fellow learners and Michael's style
- The energy and power of mutual support in a safe learning environment
- Opportunity to further cement previous learnings by reviewing the major concepts from the 2018 program
- A structure that lets you reflect on what skills you have incorporated into your repertoire

Extensions

- Michael's new insights into the differences between "Forensic Non-verbal" vs. "Detective Non-verbal." The concepts are practical and intellectually stimulating.
- In teams, you will be given *case studies* and identify the factors that are evident, what is not evident that you would want to observe, and what guidance would you offer the leader.
- And set commitments to new skills and goals

Suggestions: bring all your books and your "the Elusive Obvious" cards

Remember: remember to thank the people in advance for supporting your professional development

Dates 9 – 11 September 2019 Lunch not provided. School canteen available if required
